► Overview

JWA Oilfield Supplies Pty Ltd is a member of the JWA Groups of Companies and is wholly Australia owned and operated.

Established in 2003, JWA has regional offices in Singapore, Malaysia and Australia covering the Asia-Pacific region. Actively working on major energy and infrastructure projects in the region, JWA has been supporting operators with our range of products and services. JWA Oilfield Supplies is a premier and reliable partner to energy majors and contractors.

When you need to find a way

2003-2019 ◀
OVER 15 YEARS
OF EXCELLENCE

Vessel Services

Specialising in offshore floating accommodation vessels and custom **barge builds**

DNV 2.7-1 offshore container fabrication

Fabrication of DNV2.7-1 offshore containers and frames

Pressurised lab cabins and doghouses for use in Zone 1 and Zone 2 Hazardous areas

► **Our services**

Heavy Duty Matting services

Over 20,000 Dura-Base composite matting currently working (over 170,000 sqm) in Asia-Pacific region

Exclusive coverage of Asia-Pacific ranging from Kazakhstan, Australia, New Zealand, Papua New Guinea, Thailand, Malaysia, Singapore, India, **Bangladesh and more**

Light Duty Matting Services

Interlocking man-portable matting for pedestrian and vehicle traffic.

► Major Project References

Major Project

Papua New Guinea
Australia

Gorgon Project – Chevron Australia

- Providing drilling platform for CO2 sequestration on Barrow Island, a class ‘A’ nature reserve.
- Supplied access tracks and platforms through AJ Lucas for onshore HDD pipeline work on **BWI**
- Flooring for mobile workshop loor through Toll Energy required for a welding **station**
- Supply of custom engineered rubber spacers and mats for over 10 barges through Schenker **Logistics for the transport of 12,000 line pipes and 8,000 concrete “x-blocks”** from pipe coating yard in Kuantan, Malaysia **and from the Batam marshalling yard to BWI**

QCLNG Narrows Crossing BG QGC / Bechtel / MCJV

- Supplied 3,500sqm of DURA-BASE composite matting to support pipeline construction activities with MacDonnell Dowell.

2003-2019 ◀
OVER 15 YEARS
OF EXCELLENCE

APLNG - Origin Energy

- Support of Coal Seam Gas drilling activities through supply of 4,500sqm of access tracks **and platforms in Central Queensland.**
- Supply of DURA-BASE matting through Bechtel Australia for multiple barge landing points
- Flooring for mobile workshop floor through Toll Energy required for a welding **station**
- Provided access into tidal flats for geo-technical drilling for core penetration tests on Curtis Island for APLNG over 8 months

GLNG - SANTOS

- Support CSG Drilling activities through the supply of over 42,000sqm of DURA-BASE matting used to provide access into drilling leases as well as for creating drilling platforms **for wet weather mitigation**

PNG LNG - Exxon Mobil

- Providing over 60,000sqm worth of DURA-BASE matting used to support onshore drilling operations through Exxon's drilling contractors
- Supply of helicopter pad for Saipem
- Provided right of way for pipeline install for Spie Capag

Kashagan Project (Kazakhstan) - AGIP / Saipem

- Provision of 150m of portable right of way for construction of pipeline in Kashagan field for Saipem

East West Pipeline (India) - Reliance Industries

- Provided right of ways for pipeline work in 12 separate spreads for 1,400km, 42inch pipelines **spanning across the width of India**

PWCS Terminal 4 Upgrade - Rio Tinto / PWCS

- Provided 3,000sqm of access tracks into Mangroves for geo-technical surveys for 4 months
- Provided 3,500sqm of access tracks to assist with Terminal 4 upgrade for 3 months

Wheatstone - Chevron

- 1.5km of access tracks into tidal flats totalling 18 months for geotechnical investigations done **on 2 separate phases with Coffey Geotechnics and Golder Associates**
- Supply of DURA-BASE matting through Bechtel Australia to support construction activities **for LNG facilities**
